CDS Module 07 - Data Engineering

Mini-Project 3 - August 31 (09:00 am - 12:30 pm)

Perform complex analytics on a network intrusion dataset using PySpark

This Mini-Project is a team activity. The Mini-Project has been released in advance i.e. on August 21, 2025, to facilitate your preparation for the activity. Each team will work in a separate Zoom breakout room for this activity. Mentor's guidance will be available during the Mini-project activity (August 31 (09:00 am - 12:30 pm)).

This is a graded **Mini-Project (10 points)**. The Problem Statement, Objective, Background, Dataset, and Steps for implementation are provided within the MiniProject Notebook (Colab).

Links are provided within the mini-project notebook to serve as helpful references. Additionally, you could refer to the relevant assignments. Also please see the Reference Links shared by Prof. Yogesh Simmhan (LMS - Module:Data Engineering - Reference Links).

During the Mini-Project session, the mentor can be approached for guidance when there is difficulty in implementing specific steps. However, it is the team's responsibility to work towards the solution in the given time. Your team's solution notebook should be presented to the mentor, latest, between 11:30 am - 12:15 pm on August 31, 2025. The mentor will record the attendance of each team member and assign points to the team based on the final notebook. Each team member will receive

the same points as given to the team as a whole. Absent team members will not be awarded any points.
